

# NEW PATIENTCARE 360® FEATURE

## Community Care Summaries

New in 2021, PatientCare 360 users can now access care summaries from community providers. This is in addition to the summaries previously available from Kaiser Permanente, Dept. of Defense, Veteran's Administration and Quality Health Network.

PatientCare 360 users can now query summaries from providers in the community and retrieve a consolidated 12-month view of encounters.

Summaries from more than 265 providers are available. See the Participating Providers page of the CORHIO website at [www.CORHIO.org](http://www.CORHIO.org) for details.

## Accessing Community Care Summaries

The workflow in PatientCare 360 to access encounter summaries from community providers is simple. In the Documents tab, use the Find External Documents button and look for CORHIO Community as the sending organization in the list of documents returned.

Home > Search Results > Documents
