

Data Quality Analyst

You can make a difference in the lives of millions of people by being part of an organization that's helping improve healthcare in Colorado!

Overview:

The Colorado Regional Health Information Organization (CORHIO) is considered to be one of the most successful statewide information exchange entities in the country. Its strengths include substantial support among policymakers, stakeholders, and consumers who understand the value of having effective tools for communication and exchange available to providers and consumers in the health care system. CORHIO has provided extensive technical experience to Colorado communities to ensure collaboration and success in bringing efficiency and quality to the health care system.

The Colorado Immunization Information System (CIIS) is a program under the Colorado Immunization Section within the Disease Control and Environmental Epidemiology Division in the Colorado Department of Public Health and Environment (CDPHE). The mission of the Immunization Section is to ensure the prevention of vaccine-preventable diseases in Colorado by increasing and maintaining vaccine coverage and assuring access to immunization services. The State Immunization Registry Act authorizes CDPHE to operate a statewide immunization information system. CORHIO and CDPHE are partnering to work with healthcare organizations statewide to electronically send CIIS data to CDPHE through CORHIO's Health Information Exchange (HIE).

As a testament to the continued growth of CORHIO into additional products and services, we seek an additional Data Quality Analyst who will promote a model of collaboration and partnership with the CDPHE to ensure the integrity, validity and clinical appropriateness of data submitted to CIIS.

The Data Quality Analyst will initially work on CIIS-centric data quality reviews but will also expand into other quality initiatives across CORHIO. This is a full-time position, hired by and directly accountable to the Vice President of Project Management Office.

Job responsibilities and credentials include the following:

JOB RESPONSIBILITIES

- Schedules and facilitates projects meetings for CIIS implementations.
- Work with Practices/Participants on gathering required documents and inputs for data validation
- Ability to be the technical expert on CIIS use case testing, defect identification and remediation
- Planning and executing testing with vendors and end user
- Monitor and report on the status of project efforts, including project meeting notes and problem prevention/mitigation and encourages participant collaboration to meet all CIIS project requirements
- Reviewing incoming data for accuracy, consistency and clinically- appropriate vaccine administration, communicating discrepancies/errors to Practices/Participants
- Training Practices/Participants how to prevent and correct data errors and how/why some immunizations they have administered are inaccurate per Advisory Committee on Immunization Practices (ACIP) recommendations
- Documenting internal data quality procedures
- Recommending and developing changes to prevent systematic errors
- Performs error resolution for electronic records that did not successfully transfer automatically into CIIS
- Managing Practices/Participants and vendors to deadlines

EDUCATION AND EXPERIENCE

The Data Quality Analyst for CORHIO must bring the following experience and skill sets to the organization.

- Healthcare IT experience
- Data Quality experience
- Project Management experience
- Detail-oriented
- Ability to prioritize and successfully complete a large number of simultaneous projects
- Solid understanding of privacy and security requirements unique to healthcare
- Experience in a dynamic and innovative industry and fast-paced environment
- Proven success both internally and externally in a service/product-based healthcare organization
- Experience and confidence working with a diverse and complex set of stakeholders

ABOUT CORHIO

Improving health through enhanced use of information technology and data exchange is the heart of what we do. We manage one of the country's largest and most successful health information exchange (HIE) networks, provide advisory services that help healthcare professionals effectively use technology and improve care delivery, and supply health plans and accountable care organizations (ACOs) with valuable data that enhance analytics and population health programs. As an independent, nonprofit organization, we are dedicated to serving all of Colorado's healthcare stakeholders.

Our Mission: CORHIO empowers people, providers, and communities by providing the information they need to improve health.

Our Vision: Harnessing the power of data for health and vitality.

Our Values:

Building Community through Collaboration

Pursuing Innovation with Determination

Making a Commitment to Excellence through Life-Long Learning

Deliberately Creating a Fun and Respectful Environment

Delivering with Integrity and Accountability

Colorado Regional Health Information Organization (CORHIO) is an Equal Opportunity Employer (EOE). Upon becoming a Workforce Member of CORHIO, CORHIO may, at its discretion, conduct a background check.
