

Final Meaningful Use Objectives for Program Year 2019

Final Meaningful Use Objectives Stage 3

All Eligible Professionals (EP) must attest to all objectives using a 2015 Edition CEHRT for Stage 3.

Stage 3 Objective	Stage 3 Objective Description	Measure Amount	Stage 3 Measure(s)	Exclusion(s)	2017 Alternate Objective, Measure or Exclusion ²
Protect Patient Health Information	Protect electronic protected health information (ePHI) created or maintained by the CEHRT through the implementation of appropriate technical, administrative, and physical safeguards.	Yes/No	Conduct or review a security risk analysis in accordance with the requirements under 45 CFR 164.308(a)(1), including addressing the security (including encryption) of data created or maintained by CEHRT in accordance with requirements under 45 CFR 164.312(a)(2)(iv) and 45 CFR 164.306(d)(3), implement security updates as necessary, and correct identified security deficiencies as part of the provider's risk management process.	None	None
Electronic Prescribing (eRx)	Generate and transmit permissible prescriptions electronically (eRx).	More than 60%	More than 60 percent of all permissible prescriptions written by the EP are queried for a drug formulary and transmitted electronically using CEHRT.	Any EP who: 1)Writes fewer than 100 permissible prescriptions during the EHR reporting period; or 2)Does not have a pharmacy within their organization and there are no pharmacies that accept electronic prescriptions within 10 miles of the EP's practice location at the start of his or her EHR reporting period.	None
Clinical Decision Support (CDS)	Implement clinical decision support (CDS) interventions focused on improving	5 CDS interventions related to at	An EP must satisfy both measures for this objective through a combination of meeting the thresholds and exclusions:	Measure 2: Any EP who writes fewer than 100 medication orders during the EHR reporting period.	None

Final Meaningful Use Objectives for Program Year 2019

	performance on high-priority health conditions.	least 4 CQMs. Yes/No	<p><u>Measure 1:</u> Implement five clinical decision support interventions related to four or more CQMs at a relevant point in patient care for the entire EHR reporting period. Absent four CQMs related to an EPs scope of practice or patient population, the clinical decision support interventions must be related to high-priority health conditions.</p> <p><u>Measure 2:</u> The EP has enabled and implemented the functionality for drug-drug and drug-allergy interaction checks for the entire EHR reporting period.</p>		
Computerized Provider Order Entry (CPOE)	Use computerized provider order entry (CPOE) for medication, laboratory, and diagnostic imaging orders directly entered by any licensed healthcare professional, credentialed medical assistant, or a medical staff member credentialed to and performing the equivalent duties of a credentialed medical assistant, who can enter orders into the medical	More than 60%/60%/60%	<p>An EP, through a combination of meeting the thresholds and exclusions (or both), must satisfy all three measures for this objective:</p> <p><u>Measure 1:</u> More than 60 percent of medication orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.</p> <p><u>Measure 2:</u> More than 60 percent of laboratory orders created by the EP during the EHR reporting period are recorded using</p>	<p><u>Measure 1:</u> Any EP who writes fewer than 100 medication orders during the EHR reporting period.</p> <p><u>Measure 2:</u> Any EP who writes fewer than 100 laboratory orders during the EHR reporting period.</p> <p><u>Measure 3:</u> Any EP who writes fewer than 100 diagnostic imaging orders during the EHR reporting period.</p>	None

Final Meaningful Use Objectives for Program Year 2019

	record per state, local, and professional guidelines.		computerized provider order entry. <u>Measure 3:</u> More than 60 percent of diagnostic imaging orders created by the EP during the EHR reporting period are recorded using computerized provider order entry.		
Patient Electronic Access to Health Information	The EP provides patients (or patient-authorized representative) with timely electronic access to their health information and patient-specific education.	More than 80%/35%	EPs must satisfy both measures for this objective through a combination of meeting the thresholds and exclusions: <u>Measure 1:</u> For more than 80 percent of all unique patients seen by the EP: 1) The patient (or the patient-authorized representative) is provided timely access to view online, download, and transmit his or her health information; and 2) The provider ensures the patient’s health information is available for the patient (or patient-authorized representative) to access using any application of their choice that is configured to meet the technical specifications of the Application Programming Interface (API) in the provider’s CEHRT. <u>Measure 2:</u> The EP must use clinically relevant information	<u>Measure 1 and Measure 2:</u> An EP may take an exclusion for either measure, or both, if either of the following apply: (i) An EP may exclude from the measure if they have no office visits during the EHR reporting period. (ii) Any EP that conducts 50 percent or more of his or her patient encounters in a county that does not have 50 percent or more of its housing units with 4Mbps broadband availability according to the latest information available from the FCC on the first day of the EHR reporting period may exclude the measure.	None

Final Meaningful Use Objectives for Program Year 2019

			<p>from CEHRT to identify patient-specific educational resources and provide electronic access to those materials to more than 35 percent of unique patients seen by the EP during the EHR reporting period.</p>		
<p>Coordination of Care through Patient Engagement</p>	<p>Use CEHRT to engage with patients or their authorized representatives about the patient’s care.</p>	<p>More than +5%/+5%</p>	<p>An EP must attest to all three measures and meet the threshold for two measures for this objective. If the EP meets the criteria for exclusion from two measures, they must meet the threshold for the one remaining measure. If they meet the criteria for exclusion from all three measures, they may be excluded from meeting this objective.</p> <p><u>Measure 1:</u> For an EHR reporting period in 2019, more than 5 percent of all unique patients (or their authorized representatives) seen by the EP actively engage with the EHR made accessible by the EP and either—</p> <ol style="list-style-type: none"> 1. View, download or transmit to a third party their health information; or 2. Access their health information through the use of an Application Programming Interface (API) that can be used by applications chosen by the patient and configured to the API in the EP’s CEHRT; or 	<p><u>Measure 1, 2 and 3 Exclusion:</u> An EP may take an exclusion for any or all measures if either of the following apply:</p> <ul style="list-style-type: none"> (i) An EP may exclude from the measure if they have no office visits during the EHR reporting period, or; (ii) Any EP that conducts 50 percent or more of his or her patient encounters in a county that does not have 50 percent or more of its housing units with 4Mbps broadband availability according to the latest information available from the FCC on the first day of the EHR reporting period may exclude the measure. 	<p>None</p>
