

# COVID-19 Lab Notifications

Patient-matched notices of COVID-19 test results from Colorado hospitals, independent labs and the Colorado Department of Public Health and Environment state lab

To help the Colorado healthcare community monitor patient health during this crisis, CORHIO is providing COVID-19 Lab Notifications at **no cost to qualified participants**.

## Program Funding:

- CORHIO implementation fee waived to receive COVID-19 results (\$10,000 value)
- Monthly fees waived for three months

## Services Available:

**COVID-19 Daily Report** - Member-based routing of COVID-19-specific lab results delivered in daily batch files, including relevant demographics and disposition relating to the patient, the ordering provider, and the test facility

**COVID-19 Lab Feed** - A feed of member-based test results delivered to your chosen system in real-time

Additionally, if member-based routing is not appropriate for your organization, we can work with you on reporting customized to meet your organization's needs.

## Simple process to start receiving results:

- Send your patient or member file to CORHIO ([requirements](#))
- Current Notifications customers do not need to send a new list
- We match your patients against our laboratory results and send back notifications via daily reports or a feed into your electronic health record system or population health management software
- Includes both positive and negative COVID-19 test results
- Fast-tracked implementation for organizations interested in viewing additional data via PatientCare 360® web portal

To learn more, call 720-285-3200 or email [info@corhio.org](mailto:info@corhio.org).
