

QUICK REFERENCE GUIDE

Accessing COVID-19 Patient Results

Results Tab

The Results tab in PatientCare 360 displays test results, transcriptions, and radiology reports. If CORHIO has received any COVID-19 test results on your patients, they will be located here. We are now receiving test results from the CDPHE state lab in addition to results from our hospital and lab senders.

1. If you have not already located a patient record do this first in the Patient Search Bar.

Patient Search

Test, Patient Search

[Advanced Search](#)

2. Click on your patient's name in the list of results.

Test, Patient	05/20/1966	53 years	CEUL0117545	***-**-2412	Centura Health	Male
Test, Patient	05/20/1966	53 years	Z001096380	***-**-2412	PSL and RMHC	Male

3. In the Patient Summary window, look on the bottom left for most recent test results. (Or you can go directly to the Results Tab on the left side)

Patient Summary

Additional Records May Be Available

CONFIDENTIALITY ALERT You are trying to access patient information for which there is no current system data showing you to be a provider of record. Permitted uses of the information are for treatment and payment purposes for patients which the user has a direct and active treatment/care provider role or has been requested to perform a consultation by the physician who is the primary care provider for the patient. You can establish this relationship as either longer term or for one time access by choosing the appropriate option below. PLEASE BE ADVISED THAT ACCESS TO ALL PATIENT RECORDS IS TRACKED THROUGH AN AUDIT PROCESS. INAPPROPRIATE ACCESS IS A CRIMINAL OFFENSE THAT IS PUNISHABLE BY IMPRISONMENT, FINES AND PENALTIES FOR EACH OFFENSE AND IMMEDIATE TERMINATION OF SYSTEM ACCESS.
