

Healthcare Quality Improvement

Helping medical practices navigate new regulations and prepare for value-based payment models.

Do you want to take your practice to the next level by taking advantage of new value-based programs and incentives? CORHIO's Healthcare Quality Improvement team can help you with changes to payer reimbursements, new clinical guidelines, evolving incentive program rules, and more.

OUR TEAM CAN PROVIDE ASSISTANCE WITH:

- Understanding new programs, like the Quality Payment Program (QPP) including Alternative Payment Models (APMs) and Merit-based Incentive Payment System (MIPS), and how they affect your practice
- Attesting to Meaningful Use and preparing for audits
- Becoming an NCQA-Certified Patient-Centered Medical Home
- Improving and reporting electronic clinical quality measures; specifically for State Innovation Model (SIM)
- Selecting a new EHR system, migrating to a new system, or optimizing your current system
- Participating in Colorado grant opportunities

ADVANTAGES OF WORKING WITH OUR KNOWLEDGEABLE TEAM OF QUALIFIED EXPERTS:

- Stay up-to-date on pertinent changes to programs and new opportunities, such as grants
- Earn incentives and avoid payment adjustments
- Relieve stress and resource constraints by getting hands-on support from experts
- Improve office productivity by optimizing EHR use
- Receive accurate guidance on medical home certification by our team of NCQA Patient-Centered Medical Home Certified Content Experts

750

CORHIO has helped more than 750 providers achieve Meaningful Use.

\$7.5mil

CORHIO has helped providers earn more than \$7.5 million in EHR Incentive payments.

"On paper, Meaningful Use sounds so overwhelming. As a full-time advanced practice nurse, I thought how will I manage this? But, by working with CORHIO and carefully going over the objectives, we realized that we were already capturing a lot of the data that is needed for Meaningful Use. The best part was looking at the data and feeling really positive about the quality of care that we're giving our patients."

Tricia Lipinski
Family Nurse Practitioner
St. Luke's Medical Center

"CORHIO's interactive PCMH tool is invaluable – I can't say enough about the value it's brought to us and our ability to manage the application using it. It tells us what the standards are, gives us an opportunity to input feedback on where we are at in the process and scores us based on the assessment so we know where we stand. I can't imagine pursuing PCMH recognition without it."

Michael Garcia
Project Manager (former)
Metro Community Provider Network
